

REMARKS

Drawings

Applicants have amended Figure 5 to make certain corrections for the purpose of clarity.

Figure 5 was amended to show a possible location of a coupler of embodiments of the invention indicated at 194.

Specification

Applicants have made a number of clarifying amendments to the specification.

At page 8, the coupler on Figure 5 has been described and the relationship of the coupler to the other elements of this embodiment has been clarified.

At pages 10-14 the reference number "194" was added in the appropriate places to make the specification conform with the amended drawing.

The amendments to the specification are clarifying in nature and are generally supported by the specification and the drawings. No new matter is introduced by the amendments to the specification.

Applicants submit that no new matter was introduced by the amendments to the specification or the drawings. It is submitted that the application is in condition for allowance and favorable consideration and prompt allowance of the present application is respectfully requested.

The Examiner is invited to contact the undersigned at (612) 492-7305 if there is any question concerning the prosecution.

Respectfully submitted,
